Airnorth

Your journey with Airnorth is part of a pioneering story, connecting you to some of Australia's most remote and remarkable destinations. Airnorth opens the door from the far west city of Perth to the north's most extraordinary landscapes including the more remote areas of northern Australia from Kununurra and Broome and through the centre of Australia into Alice Springs. Wherever you're headed, you're not just taking a flight, you're stepping into adventure.

Our Favourites

At First Class Holidays we know Australia's Northern Territory and Western Australia personally, from the red deserts of the outback to the turquoise waters of the Coral Coast and the wild wetlands of the Top End. Our team have watched the sun set over Uluru from Longitude 131°, explored Kakadu and Alice Springs Desert Park, and experienced immersive First Nations storytelling that brings Country and its ancient history to life. In Western Australia, we've swum with whale sharks, explored Wadandi Country in Margaret River and Ngilgi Cave, and escaped to Rottneest Island - cycling between hidden coves, snorkelling crystal-clear waters and meeting the famous quokkas along the way.

“Swimming with whale sharks in Exmouth was a true “pinch me” moment. These gentle giants glided effortlessly past as we snorkelled alongside them, trying our best to keep up. At one point, I am sure one of the whale sharks gave me a wink.”

- Ali,
Destination Manager

“I was genuinely delighted to discover an Aboriginal cultural experience in the Margaret River Region. Walking on Wadandi land, I felt a real connection to the history as we learned about traditional medicinal plants before descending into Ngilgi Cave. Listening to the sounds of storytelling by didgeridoo, was a truly magical experience that stayed with me.”

- Emma,
Reservations Manager

“My day tour on Rottneest Island—fondly known as “Rotto”—was the perfect city escape. We hired e-bikes, snorkels, and masks, and set off to explore the island, stopping at crystal-clear, deserted beaches along the way. We paused for a sumptuous lunch at a restaurant by the lighthouse and, of course, made several stops for that all-important “quokka” selfie.”

- Scott,
Destination Specialist

“Staying at Longitude 131° and watching the sunset over Uluru was unforgettable. We sipped champagne as the colours changed constantly across the rock and sky. Every few minutes, the view looked completely different. It was a truly magical experience I’ll always remember.”

- Ali,
Destination Manager

“I had such an amazing time at the Alice Springs Desert Park. I especially loved seeing the Thorny Devil up close in the nocturnal house and watching it feed, it was fascinating. The bird shows were another highlight. I learnt about Indigenous culture which made the whole experience feel much deeper than I expected. I absolutely loved it.”

- Gemma,
Destination Specialist

“The highlight of my stay at Bamurr Plains was the airboat safari, surrounded by amazing birdlife in such a beautiful setting. I loved learning from the field guides as we drifted through the melaleuca forests, all whilst keeping an eye out for crocodiles in the floodplains. It was an unforgettable experience.”
