

An aerial photograph of a volcanic landscape. In the foreground, a large, bright turquoise lake sits in a crater. To its left, a smaller turquoise lake is visible. Further back, another turquoise lake is nestled in a valley. The surrounding terrain is dark, rocky, and sparsely covered with snow. In the background, jagged volcanic peaks rise against a sky filled with soft, white clouds. The lighting suggests a bright day, with a warm glow on the left side of the frame.
